

**Manufacturer's Certificate
Energy Efficient Home Property Credit
Internal Revenue Code Section 25C**

The Inflation Reduction Act, 2022 (P.L. 117-169) amended section 25C of the tax code, which provides tax credits for the installation of "qualified energy property" for residential heating and cooling equipment meeting or exceeding the highest efficiency tier (not including any advanced tier) established by the Consortium for Energy Efficiency (CEE). American Standard Heating & Cooling, a brand of Trane U.S. Inc., certifies that the products or system families listed below include models that meet the efficiency requirements according to the Air Conditioning, Heating & Refrigeration Institute's ("AHRI") system rating process when installed as part of a matched system, that may be eligible for the 2025 section 25C tax credit if placed in service by December 31, 2025. Confirm eligibility of your model and/or system combination by visiting <https://www.ahrinet.org/certification/cee-directory/certification/cee-directory> or by contacting your installing dealer.

Manufacturer: Trane U.S. Inc., 800-E Beaty Street, Davidson, NC 28036
Qualified Manufacturer Code: B8T9

AMERICAN STANDARD		
Class of "qualified energy property": Central Air Conditioners

Other Important Homeowner Information

There are other important requirements and limitations to qualify for the section 25C tax credit related to property ownership type and tax liability. Trane recommends that homeowners consult a tax professional to ensure they meet all requirements. The Internal Revenue Service is responsible for implementing and administering the section 25C tax credit.

I declare that I have examined this certification statement, and to the best of my knowledge and belief, the facts are true, correct, and complete.
